

Today's Town Square Teen Territory

“T-4”

With the re-development of the Rockaway Town Square Mall, you have been given a wonderful opportunity to create “Today's Town Square Teen Territory” to be known as “T-4”. This space should be designed to encourage fun, active appropriate teen activities for teens in your area. There are places available inside, outside, on top of and under the actual mall that could be turned into your space.

In order for your ideas to be taken seriously however, you need to present your ideas/plans to the developers by creating either a PowerPoint presentation or a graphic design plan along with a written report for the developers to consult at a future date. Your final presentation must include:

1. An overall concept report
2. A site plan design
3. A floor plan diagram
4. Actual Presentation
