

Landforms

Your class is going on a landform field trip and you get to decide which landform you should visit. You must investigate a landform and present it to your group. As a group, you must decide which landform you should visit. Then create a poster to present to your class with pictures and information about the land formation. Your class will then vote on which landform they should visit.

Landforms

	Novice	Apprentice	Practitioner	Expert
Graphic Organizer (individual)	includes: <ul style="list-style-type: none"> ▪ 2 facts about each landform 	includes: <ul style="list-style-type: none"> ▪ 2 facts about each landform ▪ computer generated 	includes: <ul style="list-style-type: none"> ▪ 3 facts about each landform ▪ graphic for each landform ▪ computer generated 	includes: <ul style="list-style-type: none"> ▪ 3 facts about each landform and an example of each ▪ computer generated ▪ graphic for each ▪ digital image of some landforms
Poster (group)	includes: <ul style="list-style-type: none"> ▪ title ▪ picture of landform 	includes: <ul style="list-style-type: none"> ▪ title ▪ picture of landform ▪ 2 activities to do there 	includes: <ul style="list-style-type: none"> ▪ title ▪ picture of landform ▪ example of where it is located ▪ 3 activities to do there 	all of Practitioner plus creates a quiz based on the poster to give to the class
Oral Presentation (group)	includes: <ul style="list-style-type: none"> ▪ each student presents 	includes: <ul style="list-style-type: none"> ▪ each student presents ▪ uses poster in presentation 	includes: <ul style="list-style-type: none"> ▪ each student presents ▪ uses poster in presentation ▪ makes eye contact ▪ speaks slowly and clearly 	all of Practitioner plus your group is persuasive enough to convince the whole class
