

Professional Learning Offerings in

Leveraging AI in the Classroom

Join us to explore just some of the limitless possibilities for using AI tools for instructional design, empowering educators to amplify their impact. Each topic is designed as a five-hour experience and can be facilitated on site or online. Offerings can be customized and combined to meet your goals.

Using AI for Instructional Design

“Work smarter, not harder!” AI tools give us the power to do just that. The possibilities are endless!

- Design rubrics, protocols, and instructional activities.
- Generate higher-order questions in the moment while engaging with your class.
- Write your talking points for lessons and videos.
- Use AI as your instructional design assistant.

Using AI for Innovative PBL Design with Six Ps of PBL

One of the challenges of high-quality PBL design is time to do it well. With AI, design time is reduced!

- Build your knowledge of IDE Corp.'s “Six Ps of PBL” and let AI generate ideas with you.
- Construct challenges or problems that will engage your students in deeper learning.
- Use AI tools to design rubrics reflective of your content standards for student-driven learning.
- Let AI help you design lessons and instructional activities.

Supporting ELLs with AI Tools

Explore the possibilities for using AI-driven tools to redefine language acquisition for ELLs.

- Use transformative AI for vocabulary expansion, pronunciation, and comprehension.
- Personalize learning experiences to meet individual student needs and language proficiencies.
- Use AI as your power partner in classrooms where language barriers dissolve.

Enhancing Student Writing with AI

Envision classrooms where AI-powered tools elevate writing, offering insights, suggestions, and unique feedback.

- Unleash the potential of AI while preserving the heart of effective writing instruction.
- Explore how AI can refine grammar, inspire creativity, and offer constructive feedback, all while upholding the importance of a deeper understanding of the writing process.
- Learn how to use AI tools to support student writing at the highest levels, engaging students in using the tools to analyze writing, assess the accuracy of arguments, create citations, and more.

Customizing Your Professional Learning in

Leveraging AI in the Classroom

Can't find subs to release teachers? Can't find teachers who can attend beyond-the-day PD?
Can't figure out how to keep the professional learning efforts going?

We are committed to working with school and district leadership to provide your teachers with professional learning that fits your needs. IDE Corp. can work with your school or district in a variety of ways to help teachers embrace Artificial Intelligence as a partner in the quest for student achievement, including:

Fully In-Person

- IDE Corp. will send a consultant to your site to meet with a designated group of up to 20 teachers for the day.
- Alternatively, the consultant could work with smaller groups of teachers throughout the day based on PLC, team, or grade-level meeting time.

Fully Online

- IDE Corp. will provide a consultant for the day to work with teachers through Zoom or our 3D virtual beach PD center.
- Alternatively, the consultant could provide "office hours" and meet with teachers individually or in groups over the course of a number of days.

Virtual Learning Community

- If you have at least 13 teachers to engage in the professional learning, IDE Corp. will develop a custom VLC for you. This includes:
 - Five weeks of engagement;
 - Online workshop goals, activities, and materials;
 - Live, virtual individual meetings and optional topical sessions; and
 - Office hours available throughout the five weeks.

... and any combination thereof ...

Let's get creative and keep the professional learning going!
