

Leading from Your Mission

Purpose: Reflect upon your district mission and consider what it looks like when you lead from your mission, or North Star.

Directions:

1. Write your district mission statement in the box below.
2. Then, in the table beneath it, choose a row representing one audience: students, faculty, parents and caregivers, or community. Add your reflections and insights to the row you select, citing specific examples of what it looks like to lead from your mission, what you need to do to support your mission with that audience, and what systems and processes currently exist or will be needed to support and deepen the work. Continue the process with the other three rows.
3. Use your reflections to set goals for next steps with each audience and to drive your work in leading from your mission.

District Mission Statement:
--

In Leading and Supporting:	What does it look like?	What do I need to do as a leader to support and deepen this work?	What structures/processes support and deepen this work?
