

IDE Corp.'s Summer S.P.A.R.K.

S.P.A.R.K. (Summer PBL Always Recharges Kids) is a transformative summer program designed to combat learning loss and reignite student engagement. It provides engaging project-based experiences that equip students with essential skills, ensuring measurable academic growth and a sustained passion for learning.

What Is S.P.A.R.K.?

Our approach conceptualizes curricular design in a way that goes beyond typical form and function, creating experiences that truly resonate with students.

Real-World Problems

Students tackle authentic challenges, connecting classroom knowledge to practical applications.

Accelerated Learning

Engaging projects deepen understanding and promote faster acquisition of new skills.

Executive Function

Activities are designed to build planning, organization, and self-regulation abilities.

Universal Access

Inclusive design ensures all students can participate and thrive, regardless of background or learning style.

Building S.P.A.R.K. Together

A comprehensive suite of custom-designed materials and ongoing support ensures seamless implementation and maximum impact.

01

Needs Assessment

We begin by thoroughly understanding your school's unique needs, analyzing test results, student data, and specific educational goals to tailor our approach.

02

Custom PBL Units

We design engaging PBL units focused on local or global problem situations relevant to your students, their communities, and their interests.

03

Empowering Student Learning

We foster student voice and agency through Lexile-appropriate tasks and flexible choice lists.

04

Inclusive Support Materials

We design gradual-release resources specifically for Multilingual Learners and diverse backgrounds.

05

Comprehensive Teacher Hub

We create a central website with all materials, implementation suggestions, and training videos.

06

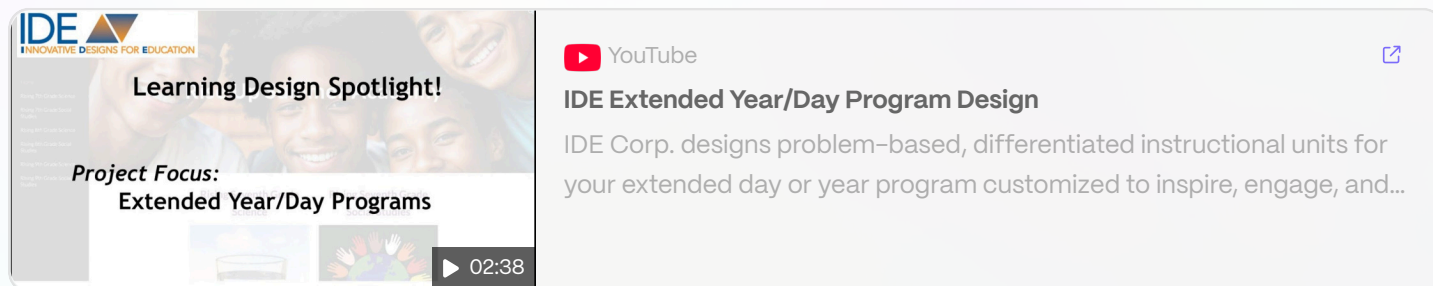

Expert Training & Coaching

We offer on-site or remote training and continued support for successful unit implementation.

07

School Implementation

With the comprehensive materials, training, and ongoing support provided, your school effectively implements the S.P.A.R.K. program, driving success for your students.

The image shows a YouTube video player interface. On the left is a video thumbnail with the IDE logo and text: "Learning Design Spotlight!" and "Project Focus: Extended Year/Day Programs". The video duration is 02:38. On the right, the video title is "IDE Extended Year/Day Program Design" and the description reads: "IDE Corp. designs problem-based, differentiated instructional units for your extended day or year program customized to inspire, engage, and...". There is a share icon in the top right corner of the video player area.

Implementation Support That Makes Success Easy

Teacher Website Includes:

- All unit materials and resources in one accessible location
- Step-by-step implementation suggestions for smooth facilitation
- Training videos demonstrating best practices and techniques
- Formative assessment grids for ongoing progress monitoring
- Sample facilitation questions to guide student thinking
- Adaptation strategies for diverse learner needs

Optional Coaching Add-Ons:

- On-site or remote training sessions for your teaching team
- Classroom observation and feedback during implementation
- Co-teaching support for complex activities or challenging concepts
- Planning sessions to customize units for your specific context
- Ongoing consultation throughout the summer program
- Post-implementation debrief and refinement recommendations

Let's Spark Change Together

We're dedicated to partnering with you to create dynamic and effective learning environments. Connect with the IDE Corp. team today to discuss how we can customize a solution that meets your school's unique needs and empowers your students to thrive. ~ *Nicole (Nik) Koch, Chief Brand Officer*
